

## Second Wednesday of Every Month

Join us in May to learn more about  
"Virtual Care as a Solution for Access and Convenience"

Short on time? Love the convenience of virtual doctor's visits, or are you new to telehealth?

Learn more about MUSC Health's robust telehealth services and how you can easily access MUSC's providers from the comfort of your home.

Topics covered include:

- Overview of Virtual Care available at MUSC Health and across the state
- Virtual Urgent Care
- Virtual Specialty Care

MUSC Health has also added telehealth appointments for Rheumatology and Endocrinology to its new Virtual Specialty Care service. These appointments go beyond a traditional telehealth visit and are available for new or existing rheumatology and endocrinology patients 18 years or older. Information about how this specialty care service creates positive change for patients throughout South Carolina will also be shared.

Emily H. Warr, MSN, RN  
Administrator  
Center for Telehealth

Emily H. Warr, MSN, RN, is the Administrator for the Medical University of South Carolina Center for Telehealth, a HRSA designated Center of Excellence. In this role, she oversees the strategic growth and direction of South Carolina's telehealth initiatives, as well as the quality of service delivery of statewide telehealth activities ranging from acute hospital support to direct to consumer modalities. She is highly engaged in initiatives to advance digital patient engagement and virtual care in South Carolina and beyond.
