**PRESS RELEASE: FOR IMMEDIATE RELEASE in Darlington, Florence, Marlboro, & Chesterfield Counties**

**NEW FACES, SAME SERVICE**

The SPC Credit Union team is thrilled to introduce four new additions to its community-oriented team. SPC firmly believes that these individuals bring immense value to the organization, as well as to its members, business partners, and surrounding communities.

Neil Jackson is SPC's new Residential & Commercial Lending Manager based in the Hartsville office. Neil brings more than 16 years of experience in the mortgage and lending industry to the team and is eager to contribute to SPC's growth in Hartsville, where family ties and a well-timed career opportunity intersected for the seasoned financial services specialist. His keen sense of business savvy, relationship building, and team-oriented project management are sure to serve SPC's business partners and members well.

Carmen Jackson joins the team as a Residential Lending Manager in the Hartsville office. Carmen is a Hartsville native who has spent more than twenty years of her career helping to fulfill the financial needs of individuals in our community through her roles within local financial institutions. Her upbeat personality and extensive experience in consumer, mortgage, and commercial lending are an ideal fit for SPC's commitment to putting Members First. Always.

In addition to Neil and Carmen, SPC has added two more members to the team through the institution's partnership with IBS (Innovative Business Solutions), a credit-union owned service organization that supports the organization's commercial underwriting and reporting. As a part of this relationship, SPC is pleased to introduce Jonathan Chandler and Jalaysha Bright.

Jonathan Chandler is a commercial lender based out of Myrtle Beach, S.C., who services SPC's market and is available to assist with commercial lending needs. Jonathan has spent the past five years of his banking career in the credit union commercial lending field and is readily available to meet with members to discuss existing or future commercial needs.

Jalaysha Bright works with IBS as SPC's Commercial Portfolio Manager. Jalaysha is based in Columbia, S.C. and will assist SPC with general oversight of the organization's existing commercial relationships.

Jalaysha and Jonathan both bring a wealth of lending knowledge and industry connections to the organization. The two will support SPC's lending department by helping to expand its footprint and manage existing relationships with borrowers and business partners in the communities served by the Credit Union.

SPC extends utmost thanks to the individuals, families, and businesses in Darlington, Florence, Marlboro, and Chesterfield Counties for trusting SPC as a local banking partner for more than 80 years. They can be found at any of their five locations in Hartsville, Darlington, Florence, and Bennettsville, or online at [spccu.org](http://spccu.org).
