

St. Anthony Catholic School Expands Educational Offerings with Year-Round 3K/4K Program

St. Anthony Catholic School is excited to announce the expansion of its educational offerings to include year-round schooling for our 3K and 4K preschool students, beginning this summer. Following the success of our pilot program last summer, we are committed to providing an enriching, continuous learning experience for our youngest learners.

This expansion allows us to offer a year-round, faith-centered educational environment that supports the academic, social, emotional, and spiritual growth of young children. Our 3K and 4K programs are designed to foster curiosity, creativity, and a love of learning, all while building a strong foundation for future academic success.

Why Choose St. Anthony Catholic School's 3K/4K Year-Round Program?

At St. Anthony, we believe that young children learn best when they are encouraged to challenge themselves through imagination and exploration. Our year-round preschool programs provide a balanced approach with a variety of age-appropriate activities and lessons that focus on developing key skills in a stimulating environment.

- **Academic Excellence:** Children will develop early academic skills in reading, writing, and math, preparing them for a lifetime of learning.
- **Social Growth:** Through play and collaboration, children will learn essential social skills, such as sharing, listening, and cooperation.
- **Spiritual Development:** Children will grow spiritually through Catholic teachings and community values, experiencing God's love in a meaningful way.

A Focus on Continuous Learning

With the success of our pilot year-round program, we are excited to offer families the ability to enroll their children in a consistent and continuous educational experience. Our year-round model ensures that young learners can thrive without long breaks that might disrupt their development, offering them steady progress throughout the year.
